

# RODOLPH VAN ROMONDT

Sacramento, CA 95829 | +1 916-494-4642 | [mr.rodolph@gmail.com](mailto:mr.rodolph@gmail.com) | [LinkedIn](#) | [Certificates](#) | [Credly](#) | [Github](#) | [Coursera](#)

## SUMMARY

IT professional with experience in troubleshooting, system administration, and technical support, combined with software engineering and full-stack development knowledge. Skilled in networking, Python scripting, cloud fundamentals, and database management. Proven ability to resolve technical issues efficiently, support end users, and maintain reliable IT infrastructure.

## TECHNICAL SKILLS

**Programming Languages:** Python, JavaScript, TypeScript, SQL, R

**Frameworks:** Flask, React, Node.js, Express.js, Redux, Django, jQuery, AJAX

**Databases:** PostgreSQL, MySQL

**Tools and Platforms:** Git, GitHub, RESTful APIs, SQLAlchemy, Tableau, AWS (*Foundational*), Cloud Computing

## CERTIFICATIONS

**IT Automation with Python Professional Certificate; Cybersecurity Professional Certificate; IT Support Professional Certificate; Data Analytics Professional Certificate** — Google

**AWS Fundamentals Specialization** — Amazon Web Services | *January 2025*

**Geographic Information Systems (GIS) Specialization** — University of California, Davis | *June 2022*

**CCNA Cybersecurity Associate; CCNA Routing and Switching** — Cisco | *Expired May 2022*

## EXPERIENCE

**IT Technician** | Arimex Consulting | Miami, FL, USA

*July 2019 - December 2022*

- Utilized SQL and Python to generate data-driven reports and perform data analysis. Contributed to mapping initiatives using ArcGIS and provided technical support and troubleshooting to ensure operational efficiency.

**Technical Support Agent** | ECCO Corp | Santiago, Dominican Republic

*March 2019 - August 2019*

- Resolved customer inquiries related to device issues and internet connectivity, utilizing strong communication and problem-solving skills to deliver timely and practical solutions.

**IT Technician** | Expression Computer Services | Port-au-Prince, Haiti

*April 2013 - September 2018*

- Led end-to-end technical solutions, including client consultations, network installations, and troubleshooting. Ensured operational efficiency and client satisfaction through proactive problem-solving and attention to detail.

**IT Associate** | Electricite D'Haiti (EDH) | Port-au-Prince, Haiti

*July 2011 - March 2013*

- Provided technical support to employees, efficiently resolving issues and managing client information within the company's billing system. Responsible for network maintenance and updates to ensure seamless operations.

**Community Mobilizer** | OXFAM International | Port-au-Prince, Haiti

*January 2010 - March 2011*

- Contributed to post-disaster relief efforts following the 2010 Haiti earthquake. Managed the Mausolée camp, conducted community census activities, facilitated donations, and led hygiene awareness workshops.

## EDUCATION

**B.S. in Cybersecurity and Information Assurance** | Western Governors University

*Expected 2028*

- Relevant Areas: Secure Systems Analysis & Design, Artificial Intelligence, Web and Cloud Security, Hacking Countermeasures, Digital Forensics, Incident Response, Data Management, and Analytics

**Software Engineering Career Track** | Springboard Bootcamp

*September 2023 - August 2024*

- Completed 800+ hours of full-stack development, focusing on MERN and Flask stacks, with 1:1 mentorship from industry experts. Coursework: Data Structures & Algorithms, OOP, Big O Notation, AI, and Language Models.

## PROJECTS

**Aid Me** - React, Express, Postgresql, CSS, JavaScript

[github.com/RodolphVanRomondt/AID\\_ME](https://github.com/RodolphVanRomondt/AID_ME)

- Built a platform for NGOs to manage disaster relief, integrating JWT authentication and React Router
- Developed a custom API for data handling and real-time updates

**Cinamate** - Python, Flask, SQLAlchemy, jQuery, WTFORMS, Bcrypt, API

[github.com/RodolphVanRomondt/Cinamate](https://github.com/RodolphVanRomondt/Cinamate)

- Built a movie discovery platform, integrating an external API and PostgreSQL database.
